

ged with Robbery Local Hospital

Man charged with the robbery and the would not be in under guard in the hospital. In the note, the Sheriff continued, Bazar also ordered to Sheriff Gerald V. Mrs. Seals to get into the car with Bazar, who the sheriff said, was armed with a .16 gauge shot gun. When the automobile was overturned in Abita, someone approached the scene and a chase by a Loui- Mrs. Seals screamed. Price said, Bazar who confessed to the robbery, had \$76 in his possession when apprehended. He was transferred from a Covington, La. hospital Friday to Hancock General, where, Price said, he is being treated for a fractured pelvis bone and three fractured ribs. The Seals' car, Price concluded, was totally demolished. Sheriff Price was assisted in his investigation by Deputy Sheriff Gerald Price, Jr., Constable H. C. Dean and Beat 5 Justice of the Peace Nelius Rhodes.

A group of enthusiastic juniors entered the history and superlatives of the City-County Memorial Library Saturday morning. In addition to rocks from different states a collection of Cheryl's rocks from a Mississippi girl were displayed. Mrs. McDonald used his ultra violet kit to catch the colors of the rocks.

HANCOCK NORTH CENTRAL DEFEATS PASS CHRISTIAN

Hancock North Central boys' basketball team, defeated Pass Christian 73-46 in North Central gym, Tuesday night, with the team also scoring a victory over 4-24.

Douglas Necaise was high scorer for the varsity and Robert Bishop for the B team.

WATER GRAZING CROPS REPORTED GROWING WELL

Water grazing crops are growing well in most areas of the state, and most dairymen report increased milk production. Throughout the state, most fall water work is over, grazing crops are growing well, and all grain have been planted.

WOODMEN CIRCLE TO MEET

Woodmen Circle 167 will hold a regular monthly meeting on Thursday, December 1, at 3 p. m. at the home of Mrs. Anna Palmisano. All members are urged to attend.

WANT MEETING OF SOCIETIES

The Altar and St. Margaret's Societies will meet on Thursday, December 1, at 3:30 p. m. in the Parish House.

Members of the Woodmen Circle, No. 167, who held their annual banquet at Haverty's Restaurant Wednesday night, are shown above.

Services Held for Bertie Blanchard On Thursday

Funeral services for Mrs. Bertie Blanchard were held Thursday, November 17, from 10:00 a. m. to 12:00 p. m. at the home of Mrs. Mary McDonald. Burial was in the cemetery.

Hospital Auxiliary To Meet December 5th

The Hancock General Hospital Ladies Auxiliary will meet Monday, December 5, at 2 p. m. at the home of Miss Kathleen Rep-

Stanislaus Students Dismissed For Holidays

Students of St. Stanislaus were dismissed Tuesday for the Thanksgiving holidays. Boarding students will return Monday and classes will be resumed for day and boarding pupils Tuesday, Nov. 29. St. Joseph Academy, Our Lady of the Gulf Archdiocesan School and all public schools closed Wednesday with classes to be resumed Monday.

Hospital Auxiliary To Meet December 5th

The Hancock General Hospital Ladies Auxiliary will meet Monday, December 5, at 2 p. m. at the home of Miss Kathleen Rep-

HANCOCK COUNTY EAGLE

VOLUME TWELVE - NUMBER ELEVEN

Couple Bring \$105,000 Suits In Fed. Court

A Hancock County couple has filed two suits in federal court at Biloxi, seeking judgments of \$40,000 and \$65,000 from a Louisiana super market firm for damages allegedly resulting from a traffic accident.

The suits were filed by Joseph H. Mollere and his wife, Mrs. Mary Lucille Mollere. Defendant in both cases is Winn-Dixie Louisiana Inc. Plaintiffs alleged to have suffered injuries when the car in which they were riding was in a collision with a trailer truck owned by the defendant company and operated by James Pugh.

The accident allegedly happened Dec. 1959 on U. S. 90 at the intersection of Beach Boulevard.

Mrs. Mollere, a passenger in the car driven by her husband, is asking \$40,000 damages; her husband seeks a \$65,000 judgment. Attorney for the plaintiff is Cornelius J. Ladner, Bay St. Louis.

COAST ELECTRIC GRANTED CERTIFICATE OF CONVENIENCE

Local Rural Electric Association Assigned Service Area In Hancock, Harrison, Pearl River And Stone Counties

On the 15th of November, 1960 the Mississippi Public Service Commission issued an order granting the Coast Electric Power Association the right to render and continue rendering electric service in specified areas in the counties of Hancock, Harrison, Pearl River and Stone.

The issuance of the order followed a hearing on Coast Electric's application, such being held in Jackson, Miss., at the office of the Mississippi Public Service Commission.

Objections to Coast Electric receiving the Certificate, previously filed by the Mississippi Power Co., were removed by the latter after they had reached a mutual agreement with Coast Electric on the geographical description of the area being certificated to Coast Electric.

The area certificated does not include any territory within the corporate boundaries of any municipality as existed on the date of the order, but the order shall be construed to affect the right of any utility to continue serving any customer that is legally serving on the date of this order.

The order became effective on the date of issuance, November 15, 1960.

HAVE YOU RECEIVED YOUR CHRISTMAS SEALS?

Persons who did not receive Christmas Seals are asked to contact Mrs. Robert Fayard at HO-75919, chairman Hancock County Tuberculosis Association.

Mrs. Fayard said every request will be filled promptly. Efforts were made to send Seals to all homes. Mrs. Fayard pointed out, but in compiling lists it is possible that some may have been overlooked.

She feels that everyone will want to help in this drive as every dollar contributed helps protect homes against a contagious fast spreading killer—Tuberculosis.

Beta Rho Chapter of Beta Sigma Phi is urging everyone in the community to use Christmas Seals on all holiday mail, as each time a seal is used it is a blow against Tuberculosis.

FUNERAL SERVES HELD FOR W. H. T. BRADFORD

Funeral services for William H. T. Bradford, were held Wednesday at 9:00 a. m. from the Auxiliary Funeral Home of Jacob Schoen and Son, Inc., in New Orleans, followed by low Mass at St. James Major Church, interment was in St. Louis No. 3 Cemetery.

Mr. Bradford, 49, a native of New Orleans and a resident of New Orleans and Waveland, died at 5:43 p. m. Monday, November 21.

Survivors include his wife, Mrs. Violette Cobb Bradford a daughter, Linda Luxich, daughter of Mr. and Mrs. Earl Luxich, was crowned queen of the event by Knights of Columbus Grand Knight Gerard Freeman. She wore a white net formal over taffeta and carried red carnations.

Maid of honor Mary Ann Horne, wore a red and white flowered cotton. Maids Cynthia Krankey, wore white net fashioned with a red velvet bodice; Janet Kidd, light pink net; Beverly Goodsell, dark pink net; Gwen Roberts and Brenda Warren both wore light pink net and Lisa Cohen blue net gowns.

Carnation wristlets in pastel colors, completed their costumes. Sylvan J. Ladner, Jr., King, was crowned by Mrs. Elsie Seller, Pere Le Duc Ladies Auxiliary president. Craig Christopher was duke of honor; dukes were Stephen Gilard, Shawn Faye, Frank Ligard, Robert Creaky, Randall Lawson and

TO BE REPRESENTATIVE AT FORESTRY MEETING

J. Roland Weston was among those from the Coast elected as a director to represent a cross-section of forestry interests at the Mississippi Forestry Association's annual meeting Friday in Jackson.

BAY STUDENTS ON HONOR ROLL

Sheila Dillmann and James Watts, both graduates of Bay St. Louis High School, were among the freshmen making the A and B honor roll at Pearl River Junior College, Poplarville, for the first nine-weeks terms. It was announced by Dean R. L. Johnson.

To Dedicate OLG School Sunday

The new two hundred and fifty thousand dollar elementary school of Our Lady of the Gulf Parish Bay St. Louis will be dedicated at 3:30 p. m. on November 27, with the program taking place in the School Cafeteria after the dedication.

The Most Reverend R. O. Gerow, S. T. D. Bishop of Natchez Jackson will officiate at the dedication ceremonies, with the following taking part: Master of ceremonies Warren Carver.

Speakers: Mr. John Scafide, Mayor of Bay St. Louis; Mr. Kenneth McCarty, County Supt. of Education; Mr. Clarence M. Ladner, State Representative, of Hancock County; Msgr. M. Moloney, Pastor, Our Lady of the Gulf Parish; Most Rev. Bishop Gerow.

Choral numbers by Our Lady of the Gulf School Choral Group under the direction of Miss Anna Marie Piazza.

Other distinguished guests, Most Rev. Bishop Joseph B. Brunini, Auxiliary Bishop of Natchez-Jackson Diocese; Mr. J. D. McCulloch, Supt. of Schools, Bay St. Louis; Mr. Wayne Alliston, County Supt. of Health Dept.; City Commissioners; representatives from City and County School Boards and visiting clergy.

The new two story structure is made of reinforced concrete and includes 13 classrooms for students from kindergarten through sixth grade, a large cafeteria with modern kitchen, lounges for teachers, administrative offices, and large storage and workroom facilities. The building was designed by J. Buchanan Blitch, A. I. A. and Richard C. Bouldous, A. I. A., Associated Architects from New Orleans. An outstanding feature of the new school's design is the

CHRISTMAS CLUB SAVINGS MAILED BY HANCOCK BANK

Christmas Cheering in the form of Christmas Savings Club Checks will be delivered to the homes of 5,314 Coast residents by the mailman on Friday, November 25. The checks will represent \$460,374.45 in savings by Club members.

The amount of savings and number of Club members for 1960 broke the previous high mark set last year of \$434,544.13 distributed to members.

Christmas Club accounts are available in the following categories at Hancock Banks: 25c, 50c, \$1.00, \$2.00, \$3.00, \$5.00, and \$10.00. Deposits may be made at the Banks in Gulfport downtown, Gulfport Northeast, Long Beach, Mississippi City, Pass Christian or Bay St. Louis.

Many people authorize the bank to transfer a certain amount each week from their regular checking account while others sign up for the Payroll Deduction Plan each week through their employer. The Payroll Deduction Plans are voluntary on the part of the business concern.

The Bank has been promoting the Clubs since 1950, with an increase in participation every year. Since 1949, the Club has increased its annual volume by over \$250,000,000. The program has become as the record shows, increasingly popular and today is used not only for Christmas Savings, but to save funds for taxes, year end bills, insurance premiums and to start a new savings account.

The Bank was an early pioneer in promoting the concept of the Christmas Savings Clubs. In 1914, forty-six years ago, the project was first undertaken by the Hancock Bank, continuing annually with the exception of the World War 1 years when the savings were converted for the purchase of Liberty Bonds.

Sheriff To Pick Up Cars With 1960 License Tags

Sheriff Gerald V. Price warned this week that effective Saturday, November 26, all cars with 1960 license tags will be picked up and owners fined.

The State Highway Department, Sheriff Price said, has been checking vehicles with 1960 tags since November 15.

The bank's total resources have continued to increase, and a called "Christmas Savings Club" has been established. The bank's total resources have continued to increase, and a called "Christmas Savings Club" has been established.

Waveland Expanding--To Get New Bank Soon

MERCHANTS BANK XMAS SAVINGS IN EXCESS OF \$25,000.00

The Merchants Bank & Trust Co. on Wednesday of this week, mailed out Christmas Savings Checks totaling in excess of \$25,000.00. This is an excellent method of accumulating money for taxes, gifts, and other necessities. The new Christmas Clubs will start this week for payment in November, 1961. Start yours today.

W. Ray Gordon Elected President Of Hancock County C of C

W. Ray Gordon was elected president of the Hancock Chamber of Commerce at a meeting of the board of directors Monday. Powell Glass, Jr., was named vice president.

Out-going president A. G. Dantagnan was given a vote of thanks for wonderful work during his term of office.

The first business meeting with the new officers is scheduled for Monday, December 5, when committees for the coming year will be selected.

44TH ANNUAL FLEA - FLY CLASSIC HELD SUNDAY

The Fleas and Flies fought a hard game in Sunday's 44th annual football classic, ending with a 6-6 score.

Linda Luxich, daughter of Mr. and Mrs. Earl Luxich, was crowned queen of the event by Knights of Columbus Grand Knight Gerard Freeman. She wore a white net formal over taffeta and carried red carnations.

Maid of honor Mary Ann Horne, wore a red and white flowered cotton. Maids Cynthia Krankey, wore white net fashioned with a red velvet bodice; Janet Kidd, light pink net; Beverly Goodsell, dark pink net; Gwen Roberts and Brenda Warren both wore light pink net and Lisa Cohen blue net gowns.

Carnation wristlets in pastel colors, completed their costumes. Sylvan J. Ladner, Jr., King, was crowned by Mrs. Elsie Seller, Pere Le Duc Ladies Auxiliary president. Craig Christopher was duke of honor; dukes were Stephen Gilard, Shawn Faye, Frank Ligard, Robert Creaky, Randall Lawson and

BOARD TO LET CONTRACT FOR BEACH IMPROVEMENT

Dr. John F. Dicks, chairman of the Beach Cleanup program said this week that the \$1500 contribution received from property owners in the Bay-Waveland-Lakeshore area with the \$1500 made available by the Hancock County Board of Supervisors to the Beach Improvement project, will now make it possible for the Board to let the contract for the removal of all unused pilings and other debris from the beach front.

Donations towards the program were received from American Legion Post 139, Mervin N. Andrus, W. P. Baker, Herbert Baron, E. M. Brigneau, N. L. Carter, City of Waveland, Dantagnan Realty Co., L. John F. Dicks, Donald W. Doyle, Gex and Gex, Col. Marcel Gillis, J. B. Goldman, W. R. Gordon, James Kambur, Leonard King, E. P. Kirkpatrick, V. A. Leveau, Mrs. B. H. Lister, J. C. Lyons, W. A. McDonald and Sons, Merchants Bank & Trust Co., Raburn J. Monroe, Malcolm L. Monroe, Oak Blvd. Pier Group, Inc., Ben J. Peters, Leon Poirier, J. T. Prowell, Lacy Richardson, James M. Robert, T. T. Robin, Dan M. Russell, Jr., Mrs. Adaline Samuel, Otto Schupp, Walter J. Scrimshaw, Leo Seal, Sr., Leo Seal, Jr., Percival Stern, A. W. Stahl, R. A. Steinmayer, Mrs. E. C. Sullivan, Eddie J. Trascher, Mrs. Baldwin Wood and Fred Young.

Thomas Heimburger.

Girls from Our Lady of the Gulf School participated in the half time entertainment.

The annual event, sponsored by Knights of Columbus Pere Le Duc Council 1522 and St. Stanislaus, was started by the late Brother Peter and has been continued throughout the years in his memory.

Many football players of note had their beginning in this classic.

Nellus Farve, Knights of Columbus General Chairman, was assisted by Mrs. John Scinnia, Pere Le Duc Ladies Auxiliary Chairman.

The Fleas small group was coached by Brother Valery, S. C.; the medium and large groups had Bro. Roger, S. C. as coach and the Le Duc Ladies Auxiliary president, Frank Lee Medium group, W. Andrews, coach and assistant Jim Wilkes; and the large group, Manuel Maurigi, Jr., coach and Donald Dufresne, assistant.

Above are shown the King and Queen and their court, who reigned over the Flea and Fly festival at Stanislaus Stadium last Sunday.

Ant Eye Symbolizing Research Hope Visited by Small Birth Defects Victim

The lights dim, and in a darkened high-ceilinged room, a somber-faced little boy sits at the pilot light of a powerful microscope.

It is the electron microscope at Ohio State University Hospital, Columbus, Ohio, that is the focus of the boy's inquiring eyes.

The small boy with the face of a little angel, Kevin Sharp, 3 1/2 years of age, is visiting the microscope.

Kevin's mother, Mrs. Gerald Sharp, says her son is a victim of a congenital malformation of the spine. He is paralyzed from the waist down and cannot play ball or indeed play much at all.

Such mobility as he has is made possible by his crutches and leg braces.

Kevin's is one of the significant birth defects the cause of which is being pursued today.

The National Foundation for the March of Dimes continues its research on congenital malformations.

It is estimated that 250,000 infants are born in the United States each year with some form of congenital malformation.

Kevin's malformation is one of the most serious, in which the spine is malformed.

He is paralyzed from the waist down and cannot play ball or indeed play much at all.

Such mobility as he has is made possible by his crutches and leg braces.

Kevin's is one of the significant birth defects the cause of which is being pursued today.

Kevin Sharp, 3 1/2 years, of Grove City, Ohio, victim of birth defect of an open spine, stands before huge nine-foot electron microscope at Ohio State University Hospital, Columbus. Instrument is used in March of Dimes-supported research into congenital malformations.

live," says Mrs. Gerald Sharp, his mother. "In addition to his open spine, he had two clubfeet which are now much improved due to surgery and physical therapy. He is a brave and happy little fellow even if he smiles so rarely. My husband and I thank God that today wider research is being done into birth defects."

She adds somewhat wistfully: "My husband Gerald and I met in an orphanage in Xenia, Ohio. We became childhood sweethearts. Like other young

people, we longed to raise a family, and a healthy one.

"Why should this unaccountable accident have happened to us? But we count our blessings. Perhaps fewer Kevins will be born to the next generation. We certainly pray so."

The lights return, and supported by his crutches and braces, solemn little Kevin struggles back from the microscope. But at that moment, looking up at his mother, there's the suggestion of a smile around the corners of his mouth.

potash so the grazing will be there next spring.

Don't forget the lime. If your land needs lime and you do not apply it, chances are you will have poor growth of grass and no clover at all.

In overhauling permanent pastures, you may need more seed. If so, check with your local county agent as to the best time

to plant the grasses or legumes you want.

Don't forget weed control. But before using chemicals to control weeds, check with your county agent regarding restrictions on use of herbicides.

This is the breeding season for dairy cows, and the future herd depends on the sire you are now using. Generally the best sire you can afford is obtainable through artificial breeding.

Breed your cows to freshen in the fall, but be sure to allow the cows a 60 day rest between freshening and rebreeding.

Pastures are your cheapest feed. Plan to have some temporary grazing crops next summer. Plant now, if you haven't already done so, some grazing crops for late winter and early springs. Make sure you control weeds on next summer pastures—they take up plant food and moisture that should grow grass.

Cull your herd soon. Prices may be lower in the spring. And cull cows take up food that the good cows need.

Always the heart

of our

business

Why do most drugstores sell everything from breakfast to dance wax . . . ? The answer is simple. It is a matter of economic necessity. Americans, thank goodness, are generally healthy and there are not enough prescriptions to keep all drugstores going. Thus, we sell a variety of merchandise. By so doing we are able to stay open and render assistance whenever and wherever it is needed. Prescription service, however, continues to be the heart of our business and we are always pleased to assist you when medication is needed.

COTTON GROWERS TO VOTE IN DEC. FOR REFERENDUM

Cotton growers will vote December 13 in their annual referendum to determine whether to use a system of marketing quotas for the upcoming crop of upland cotton.

Chairman E. H. Porter of the Mississippi Agricultural Stabilization and Conservation State Committee announced today.

If approved in the referendum, the system of quotas would apply to the 1961 cotton crop. This would be the eighth successive year in which quotas have been in effect for upland cotton.

Upland cotton quotas have been proclaimed by the Secretary of Agriculture on the basis of an official determination that the estimated total supply of cotton for 1960-61 will amount to approximately 21.7 million running bales, or about 3 million bales above normal. The law requires the proclamation of quotas by October 15 in any year when the total supply exceeds normal. Quotas do not take effect, however, unless approved by at least two-thirds of the growers voting in the referendum.

In announcing the upland cotton program for 1960, Chairman Porter

pointed out that only one allotment-price support program will be available to growers for their 1961 cotton crop. Legislation provided the so-called Choice (A) (B) programs only for 1960 and 1961.

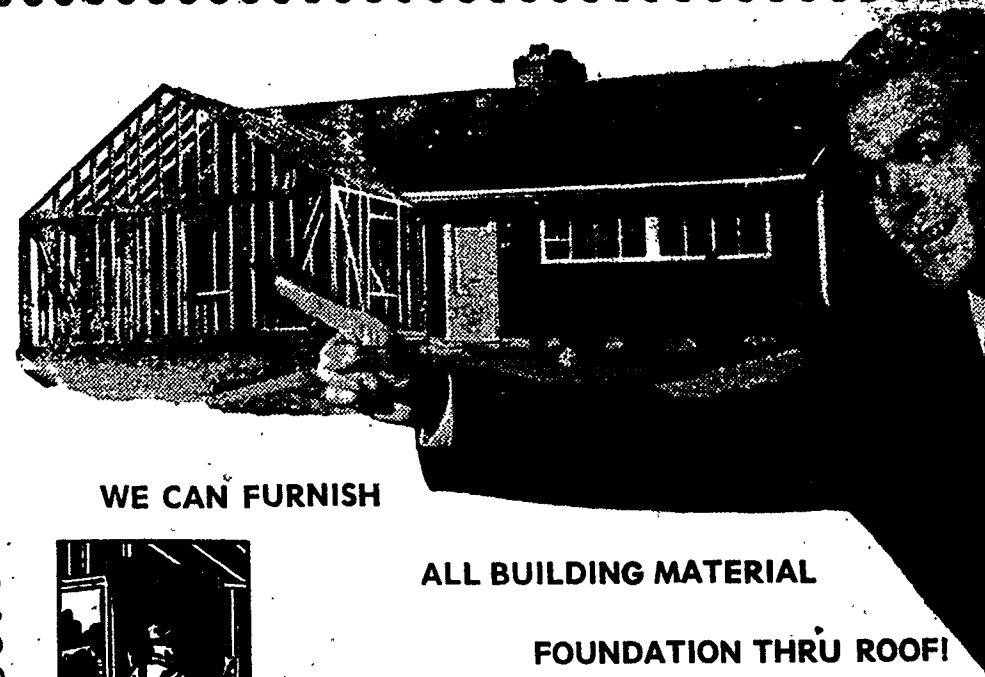

The national cotton allotment for 1961, he said, has been determined at 18,308,454 acres, compared with 16 million acres in 1960. This 1961 national allotment, plus a national reserve of 60,000 acres, will be broken down to states and counties and individual farm allotments will be made available to producers before the referendum. The 1961

farm allotments as compared to 1960 may vary considerably in extent to which they reflect the national increase. Mr. Porter said.

If marketing quotas are approved in the December 13 referendum, price support will be available to growers who comply with these farm allotments at a level within the range of 70 to 80 percent of parity. As in other years, the exact level of price support will be determined later. Growers who exceed their farm acreage allotment will be subject to penalties of 50 percent of the June 13, 1961, parity price on the farm's excess

production of the crop. Growers who exceed their farm acreage allotment will be subject to penalties of 50 percent of the June 13, 1961, parity price on the farm's excess production of the crop.

Be as fresh and smart after doing the laundry as before! Wash day is only minutes long with a wonderful new combination washer and gas dryer.

Place laundry in this completely automatic unit, add soap, set the time and temperature controls—and forget it. Wash-day is done! Without further attention, laundry is washed and dried—soft, fluffy and sterile clean.

The combination gas washer-dryer is faster... costs less to install... costs much less to operate. It's the ultimate in fine laundry equipment. See your dealer or your local gas company... today.

NATURAL GAS still your biggest bargain

UNITED GAS

SERVING THE GULF SOUTH

ST. LOUIS 1960 POPULATION
GAIN OF 409 OVER 1950

Washington—Jackson, which held that position with a substantial gain in population during the past decade, was the Mississippi's fastest growing city during the 1950-60 decade, a new report by the census bureau shows.

The capital city's population during the decade increased from 97,674 to 144,422. Meridian, once Jackson's rival for the first city in the state, held its 1960 time No. 2 position with an increase from 41,709 to 43,374.

GULFPORT GROWS

Gulfport leapfrogged from 9th place in 1950 over Hattiesburg, Vicksburg, Laurel and Natchez, to become the state's fifth largest city. The county seat of Harrison, the state's second largest county, Hinds is first, grew from 22,418 in 1950 to 30,204 in 1960.

Hattiesburg is in sixth place with an increase from 29,432 to 34,968; Vicksburg is seventh with an increase of more than 2000 to 29,130, and Laurel eighth from 24,988 to 27,889.

Columbus moved up to ninth place in 1960 from 11th a decade ago with a new population of 24,771 as compared with 17,170. Natchez is the state's 10th largest city with 23,791. The city was No. 8 in 1960 when the population was listed at 22,678.

Clarksdale is in 11th place with a new population of 21,105, and Greenwood dropped from 10th position a decade ago to 12th place with 20,436. Tupelo remained in 13th place with 17,221 and Pascagoula, the 14th largest commu-

nity in the state 10 years ago, held that position with a substantial gain from 19,797 to 17,139. McComb continued as the 18th largest city, growing from 10,396 to 12,030.

Nearly all of the incorporated communities of the three coastal counties chalked up gains. For instance the population of Moss Point, which for all practical purposes merges with that of Pascagoula, almost doubled in 10 years. The 1960 census is listed at 6831.

In addition to Biloxi and Gulfport, the Harrison County communities of Long Beach (4770), Mississippi City (4169) and Pass Christian (3381) increased. Bay St. Louis, in Hancock County had a 1960 population of 3073 as compared with 4664 in 1950. —Times Picayune.

Beta Rho Chapter
Pledges New Members

Beta Rho Chapter of Sigma Phi Sorority pledged two new members last Tuesday night at a candle-light ceremony at the home of Mrs. Reuben Ruiz.

New members are Miss Anna Marie Piazza and Mrs. Monroe Cuevas.

The ritual table was adorned with yellow roses, the sorority's official flower, and yellow candles.

Fall arrangements and roses were used throughout the room. At the close of the ceremony, Mrs. Ben Hille, Jr., president, presented Mrs. Joseph Kersane a past-president guard for her Ritual of Jewels pin.

Mrs. Hille reported an executive board meeting will be held Friday morning at the home of Mrs. Wayne Dugas.

Thanks Supporters

The Yearbook Staff of Bay High School wishes to thank those who have shown their support of the activities of our school by purchasing space in the advertising section of our school annual.

At one time it was sufficient for our public schools to teach the three "R's." But with the efforts of the Communists to indoctrinate our citizens into their way of thinking, it has become vitally necessary for our American students to be taught the ideals of democracy and to be prepared to take their places in a democratic society based on those ideals.

To the public schools of the United States is entrusted this task of informing students about our country—its history, its government, and its democratic ideals. Therefore, the Administration of Bay High School encourages its students to take part in various school activities for participation in activities like publishing the Yearbook is one kind of preparation for their sharing later in civic affairs—a vital part of our democratic way of life.

Business establishments who advertise in the Yearbook are contributing to the success of this activity of the students, for the Yearbook would not be possible without the support of the public.

We also wish to thank those contributors who donated to the Yearbook.

GREATER CONSUMPTION OF
MEAT PROMISING FACTOR
IN AGRICULTURE

The fact that the nation's meat consumption is rapidly increasing affords a stimulating challenge for the expansion of Mississippi's meat animal production, to obtain a fairer share of sales and profits for the economy. Agriculture is becoming of greater importance in Mississippi's agricultural future, and Mississippi's land, rainfall and favorable climate are especially well adapted to raising animals. Better breeding, feeding and general management has greatly enhanced the value of meat animals in Mississippi during the past decade.

AGRICULTURE DEMANDS
FERTILIZER

Promising future opportunities for Mississippi's expanding fertilizer production are indicated in the fact that stepped up agricultural output needed to combat world hunger will require a sharp jump in fertilizer for the balance of the present century. American

HOME
AGENT'S
NOTES

MARCIA P. HUGHES
Home Demonstration Agent

Mother serves Junior a glass of milk, but doesn't take one herself. Dad puts some cooked carrots on Mary's plate, but skips himself.

Are Mother and Dad really thinking of how they are influencing the food habits of their children. When parents tell children to eat vegetables and meat and to drink milk, but don't do it themselves, it is to be expected that children pay more attention to what their father and mother do than what they say.

Food habits of family members help determine those of the children. Dad's food habits have a great influence on the children. Because Dad dislikes certain foods, the children are rarely or never served these foods.

A child's dislike for a particular food is often temporary and will disappear if parents do not make an issue of it.

Did you know? An anti-flea dog food is in the making. It's being tested now at Oregon Experiment Station. They are developing a chemical food that causes fleas to drop over dead when they bite the dogs that ate the food. More research is needed before the flea killing food is on the market, but it's only a matter of time.

CHECK LIST FOR BUYING
SMALL APPLIANCES

Are you thinking of adding a small electrical appliance, such as a toaster or a portable mixer? Before you buy, ask yourself: Do we really need it? Will it be used often? Do we want the convenience it offers? Is there enough electric current to make it work in our home? Are both manufacturer and dealer reliable? Will it be easy to use? Will it be easy to care for? Now check your decision, based on the answers to these seven questions: —To Buy or—Not to buy.

THREAD FOR SEWING
TODAY'S FABRICS

Determine the thread you use by the type of fabric you are using. Nylon and dacron threads have strength and dry quickly. Mercerized thread has less strength and dries more slowly but offers greatest variety in color matching. Silk thread is a good compromise.

The synthetic or silk threads have more wearability for use with 100% synthetic fabrics or for blends with a high percentage of synthetic fiber.

When stitching with nylon or dacron thread, use a felt pad on the spool pin of the machine—this prevents the thread from unwinding too fast. Place the spool with the notched side up so the thread doesn't sag. Cut nylon and dacron thread: never try to break it since this may cause puckering.

Agriculture will be depending more heavily on fertilizer than in any other period of farming history.

NOTICE TO BIDDERS

Sealed bids will be received by the Board, in Bay St. Louis, Mississippi, to be delivered to the Office of Superintendent of Education on or before Saturday, November 26, 1960 at 10 A. M. at the Courthouse in Bay St. Louis, Mississippi for the following:

The land and improvements formerly known as the Sellers School, being a total of 44 acres and being located on the following described property:

NW 1/4 of SW 1/4 in Section 24, Township 5, S. R. 14 West.

ALSO:

Beginning at the Northwest corner of the SW 1/4 of SW 1/4 Section 24 Township 5, S. R. 14 W.; thence running East 7 chains and 39 links; thence South 7 chains and 42 links to the Northern line of the Public Road; thence Northwesterly along said road to the Section line between sections 23 and 24; thence North 1 chain and 83 links to the place of beginning containing 4 acres and being part of the SW 1/4 of SW 1/4 of Section 24, Township 5, S. R. 14 West in the County of Hancock, and State of Mississippi.

That a condition of said sale shall be that all oil, gas and other minerals owned by the school district shall be reserved by said School District.

A further condition of said sale shall be that the School District shall reserve the right of the use and occupancy of the buildings located on said property and situated as the Teachers' Home or residence, for the purpose of the school district.

The Board reserves the right to reject any and all bids.

Done in and for the County of Hancock, Mississippi, this 24th day of November, 1960.

Witness my hand and seal of Office, this 24th day of November, A. D. 1960.

Witness my hand and seal of Office, this 24th day of November, A. D. 1960.

1961 Poster Child for March of Dimes
Is Victim of Two Grave Birth Defects

PLEASE SAY YES TO THE
NEW

This likeness of Linda Breese appears on millions of posters and coin collections.

Linda Gall Breese, a pictorial and high-spirited young lady of four, who lives in Columbus, Ohio, was named this week as the 1961 New March of Dimes National Poster Child.

Selection of the vivacious child, a victim of the grave birth defects of an open spine and excess fluid on the brain, was announced by Basil O'Connor, president of The National Foundation, parent body of the New March of Dimes. Study and patient aid in birth defects and arthritis, together with continued work in polio, embody the expanded program of the health organization.

In January, during which the New March of Dimes will be held throughout the nation, Linda will probably feel she is facing mirrors everywhere she travels. That's because millions of posters will bear her likeness, which, in drawings and photographs, will also be published in thousands of newspapers and magazines. The blonde and blue-eyed child will also appear on network television.

Linda's parents are Mr. and Mrs. Dean E. Breese. Her father is an industrial engineer. Her mother, Dorothy Lohr Breese, in addition to Linda has another daughter, Susan, 14, and two sons, Ronnie, 12, and Terry, six. Tragically, since there is

handicapped Linda among the Breese children, Ronnie is a victim of cerebral palsy but his general physical condition is described as good.

Mrs. Breese has been a Mother's Marcher for the annual March of Dimes.

"My husband and I are deeply grateful that at last something constructive is being done about birth defects," she says. "We pray that The National Foundation, which through public contributions to the March of Dimes, finances the development of the Salk polio vaccine, will in time also solve the puzzle of birth defects, which are the largest unmet childhood medical problem in our country today."

Emphasizing the enormity of the problem, Mrs. Breese cited statistics showing that 250,000 infants in the United States are born annually with significant birth defects. Also because of these congenital malformations, 34,000 babies a year in the nation are stillborn or die in the first four weeks of life.

Linda underwent surgery to close her spine when she was less than a day old. The operation was performed at Children's Hospital, Columbus, where The National Foundation with March of Dimes funds established the nation's first Birth Defects Study Center a few months ago. Nine months

Linda Breese

later, she again had surgery for excess fluid on the brain, and the little girl today wears a "shunt" tube to drain of this liquid. Linda also uses crutches but has been able to discard her leg braces. Recently, while helping her mother wash dishes, she took three steps without her crutches—a memorable and hopeful event.

City of Bay St.
Louis To Receive
Official Entry Book

The City of Bay St. Louis is one of the latest Mississippi centers to receive the official entry book in the new Merit Community Program, according to Mr. Don Colmer, Hattiesburg, chairman of the statewide community-improvement project.

Mr. Colmer said the book, a three-ring binder for keeping records in the program, was requested by Mrs. Mabel Green, representing Hancock County Chamber of Commerce.

"This means Bay St. Louis is now ready to begin its active participation in the new Merit Program,"

the official said.

"When the community scores itself in the ten general categories, and reports to headquarters, it will then be ready to purchase the attractive sign to be placed downtown. The sign will serve as a constant reminder of the project, and let visitors know of the community's participation."

"We commend the spirit which motivates a community to enter this new self-improvement program. A study of communities surging forward to day shows them to be the one who prepared themselves for development in the years past. The sponsors of this new program hope more Mississippi communities will join the ranks of those now preparing for greater prosperity in the future."

The Merit Community sponsored

through the State Chamber of Commerce-MEC is a follow-up of the popular HomeTown Development Program. The latter came on Dec. 31, 1959, after two years operation.

"Who Hath Desired The Sea?"

The Gulf of Mexico—Mississippi's southern boundary—is more than a mere body of water. In pre-historic times it covered vast areas of the mainland and receding left its mark upon the very face of the land. Later these waters provided transportation for Indian, explorer, colonizer, sailing clipper, and finally modern steamship.

Under the water's surface is a population of billions. Fish, crabs, oysters, scallops, shrimp, mammals, plankton, and other forms of life exist today in the waters of the Gulf in much the same state

that they did millions of years ago. The abundance of this valuable natural resource has enabled Mississippi to become one of the world's leading producers of seafoods.

Meeting increasing demands, experimentation is finding workable methods of converting saltwater into fresh water, clinically pure and suitable for all uses.

Here too, there is untold wealth of mineral matter. Oil, gas, gypsum, sulphur, common salt, calcium, bromine, magnesium, and other deposits combine to total

more than forty-eight basic elements found in our Gulf. In addition there is also gold, but as yet there is no economical method of extracting it, although scientists are at work on this and other projects.

The sea at Mississippi's front door lies before us, an undiscovered treasure. Science has barely begun to unlock our precious resource. And electricity—that magic key to research—becomes an increasingly valuable tool. Rich in food and mineral, the Gulf of Mexico challenges us to harvest its wealth.

Danny and Tess took part in the Thanksgiving tableau at school last week, and they did a good job. As I looked at them, I thought of the real Pilgrim children and that first Thanksgiving.

Our forefathers weren't inoculated against childhood illnesses. They didn't have miracle drugs and warm clothes. They certainly didn't have more than they could eat. They faced incredible hardships, with no bright toys for special rewards, no candy bars. But they knelt down in the cold with their parents and gave thanks to God just for being alive.

Can we do less today? Can we possibly do less, this Thanksgiving, than go to Church and humbly give thanks to our Creator for His wonderful gift of life?

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

SHOPPERS' DIRECTORY

Personals

Miss Joy Monti of New Orleans spent the weekend with her mother Mrs. Leola Monti and her grandparents, and aunt, Mr. and Mrs. S. Blake, Sr. and Miss Rosemary Blake.

Miss Nancy Gray visited friends in Hattiesburg over the weekend.

Miss Nancy Gray, daughter of Mr. and Mrs. J. W. Gray of Bay St. Louis and Miss Lynne Hall, daughter of Mr. and Mrs. Norman Hall of Waveland were listed on the Honorable Mention list for the first quarter at Gulf Park College.

Dr. and Mrs. B. L. Ramsey left last Wednesday for Clarksdale, Miss., where they were called by the death of her brother, Tom Caffey.

Dr. and Mrs. Wesley McFarland entertained at a dinner party at their home last Saturday evening. Guests for the occasion were Mr. and Mrs. Norman Renshaw, Mr. and Mrs. Richard Hadden, Mrs. Shirley Sewell and Dr. Charles Wascam.

Mrs. Louis Naman of Mobile, who came over Wednesday for a visit with her parents Mr. and Mrs. Edmond Blake and family was joined Saturday by Dr. Naman and they returned home Sunday.

Safety Commissioner Urges Football Fans To Leave Home Early

Public Safety Commissioner Thomas Shelton urges football fans planning to attend the annual Ole Miss-State game at Oxford Saturday, Nov. 26, to "leave home early."

As every fan who has attended an Ole Miss-State University game at Oxford well knows, parking is a major problem.

Traffic congestion on the campus near Hemingway Stadium and on highways leading into Oxford hogs traffic flow to a snail's pace just before game time. Often fans who allowed themselves ample time to travel from home to Oxford under normal travel conditions never see the kickoff, or even the first quarter of play.

The big problem is parking space. Every campus parking fa-

State Golf Tournament To Be Played At Pass Isles Golf Club Next Spring

Mrs. Dee Handrix was winner of last week's ladies' day odd and even hole tournament at Pass Christian Isles Golf Club with a net 45 in the 18 hole class; Mrs. William Cooley with a net 42 in the 9-hole class and Mrs. Powell Glass, Jr. low point with 14.

Mrs. Glass was elected president of the Mississippi Golf Association, with Mrs. John David, vice president and tournament chairman; Mrs. J. W. Waggoner, secretary and Mrs. W. T. Johnston, treasurer.

Miss Ann Liversedge, Mrs. Lester Walters and Mrs. Jack Lang formed the nominating committee. The State Golf Tournament is slated to be held in Pass Christian next spring.

Woodmen Circle No. 167 Has Annual Banquet

Supreme Forest Circle 167 held its annual banquet Wednesday night at Haverly's Restaurant in Waveland.

The occasion also honored the circle's president, Mrs. Anna Palmanisano, on her 75th birthday. The table was centered with a birthday cake trimmed with pink roses.

Attending were Mesdames Margaret Kern, Theresa P. Johns, H. E. Ming, Henry Kothmann, Georgia Ladner, Nellie Martin, Rosa Bokenfroh, Asa Lafontaine, L. Spam, Billie Griffith, Juanita R. Miller, Juanita Ward, Adine Goslee, Rose Bonneval, D. W. North, Jr., Joseph Noto, Ethel Favre, Manville Bandaret, Catherine Sager, Louis Jacobi, Jr., D. A. Dorman, Ennis Johnson, Henry Carver, Rubie Bordages, Bill Peterson, Lola Taconi, Marion Beal, Mary E. Palmanisano, Clara Sherrer, Leontine Ziegler, Lena Henry, Cecile Bandaret, Louise Healy, Anna Palmanisano, Jennie Bourgeois, Beverly Scianna, Douglas Bourgeois, Inez Favre and District Manager, Mrs. Lessy Brent and Mrs. Olean Tyrone of Biloxi, and the Misses Etta Mohr, Harriet M. Ward, May Colson and Veronica B. Mohr. Mrs. Palmanisano was given an electric grill from members of the Grove.

The entrance prize was won by Mrs. Manville Bandaret.

city or space where vehicles can be parked is utilized, but it takes time to get automobiles into these make-shift parking areas. This backs traffic up.

"So pack a lunch or eat after you get parked at Oxford but leave home early," advises Commissioner Shelton. "Park as directed, and as soon as you arrive on campus. If you plan to do some campus visiting do it on foot."

And above all else, observe all traffic safety rules to and from the game, he added.

CELEBRATES BIRTHDAY

David Grannison Sellier, Jr. celebrated his fourth birthday Monday, November 14th at the Felicity home of his parents.

His grandmother Elsie Sellier and a host of close relatives were guests at the party.

The refreshment table was covered with a circus design tablecloth and matching napkins. Bright colored horns were given each child.

After refreshments of chocolate fudge cake, ice cream, the children gathered in the living room and enjoyed playing with David and his toys.

B-W Garden Club Meeting Held Thursday

Arrangements of fall blossoms decorated the Dan Russell home on North Beach for the Bay/Waveland Garden Club meeting last Thursday.

Mrs. R. E. Gray, president, introduced guests and new members, Mesdames Harold Powell, K. T. Breland and Frank Manning. Mrs. L. T. Boyd gave the devotional and Mrs. Hugh Miller, introduced Mrs. C. D. Kalmbach, who presented an interesting discussion on parakeets.

Mrs. P. E. Porter, Sr., discussed gardening, giving as her advice for success, "tender, loving care."

Mrs. Paul Miller, gave a demonstration on half circle arrangements.

Mrs. Leo Seal, who announced the yearly party for Gulfport Veterans will be held at the Gulfport Hospital December 15 and asked for volunteers for the event.

Mrs. A. E. Alexander asked for colorful flower catalogues and magazines for use in her garden therapy work with handicapped children.

A report on the recent trip to Laurel to the Southern Garden Club conference was given by Mrs. C. B. Beyer.

Members were given colorful

STUDY USE OF FISH MEAL IN BROILER FEED

State College, Miss.—Fish meal may not be as important in broiler rations now as it once was. This is because of the better quality feedstuff now being used and the better nutrient balance in the ration. Dr. E. J. Day of the Mississippi Agricultural Experiment Station has recently reported a study along this line.

Vegetable oil was used as added fat at levels of 0, 4, and 8% with and without fish meal. 12 pens of 100 chicks each were used in the study which was conducted at Mississippi State University. Added fat improved growth rate and feed efficiency. Fat also resulted in a decrease in the cost of producing a pound of broiler meat; whereas, fish meal increased the cost of producing a pound of meat.

"In view of these results," Dr. Day said "there is a need for more study on the economic aspects of adding fish meal to broiler rations. It may be more profitable to feed the birds for longer periods of time and not use fish meal. Also, there was a definite trend of decreased cost of production as the fat level of the rations was increased, indicating the practical type rations may not contain
